

# SING THE EARTH

This is an invitation to ... **BECOME PART OF A SONG!**

**SING THE EARTH** is an initiative started in Denmark, inspired partly by Earth itself and partly by the fact that Denmark will later this year host the **15th Global UN Climate Conference (COP15)**.

The initiative is based on a strong impulse saying "**SYNG JORDEN**" which is Danish for "**SING THE EARTH**".

Based upon this impulse a group of people in Denmark have now launched two global events.

One on **22nd September** where groups all over the world are invited to join the **EARTH SONG**. To support and reinforce all the good current efforts in favor of bringing about a more balanced relationship between us humans and our planet. And to strengthen our own awareness and courage to let our voices be heard in this regard.

And another - a **48-hour song marathon** - on **11th through 13th December** to create a healing and balancing backdrop for the final climate negotiations among the world's political leaders.

For more information - or to join us in Copenhagen or in your local area - please go to [www.singtheearth.com](http://www.singtheearth.com).

Or send an e-mail to [info@singtheearth.com](mailto:info@singtheearth.com).

**We look forward to hearing from you - and so does the Earth!**
